Address: 35 Olzhicha str., apt.5, 02000, Kyiv, Ukraine.

SUMMARY

Enthusiastic beginner programmer with knowledge of Python and desire to develop backend. I am looking for a company that can offer interesting tasks and where I can develop as a programmer.

SKILLS

Programming languages: Python, C#, C++;
Frameworks: Flask, SQLAlchemy;
RDMS: PostgreSQL;
Virtualization: Docker;
English: Intermediate;
VCS: Git;

EDUCATION

Microprocessor engineering, Faculty of Electronics (2019- Present) the National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute". Specialty: Telecommunications and radio engineering.

Experience and projects:

EVO Test Task:

This is my first test task. The main goal was to create a small site that keeps the names of past users and welcomes new and old users differently.
Technology stack: Python, Flask, HTML
